

EOSCsecretariat.eu

Setup and management of the EOSC Secretariat supporting the EOSC Governance

Secretariat support services

Agis Evrigenis

EOSCsecretariat.eu Director

Scope

The EOSC Secretariat, effectively delivering 360° support to the EOSC Governance (**notably the Executive Board**), works openly and inclusively together with communities to co-create an all-encompassing European Open Science Cloud.

Highlights

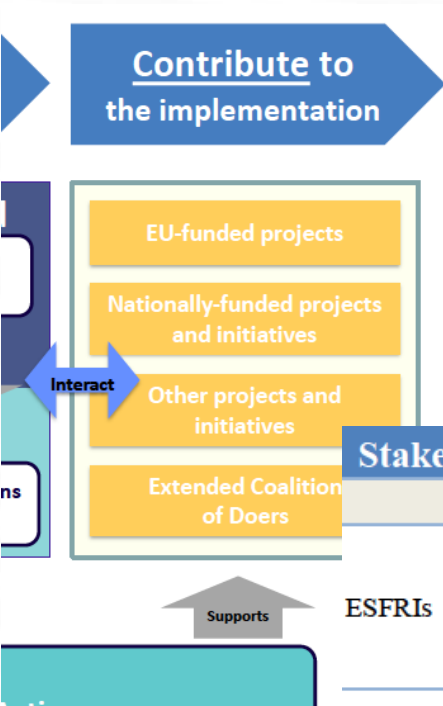

Our services

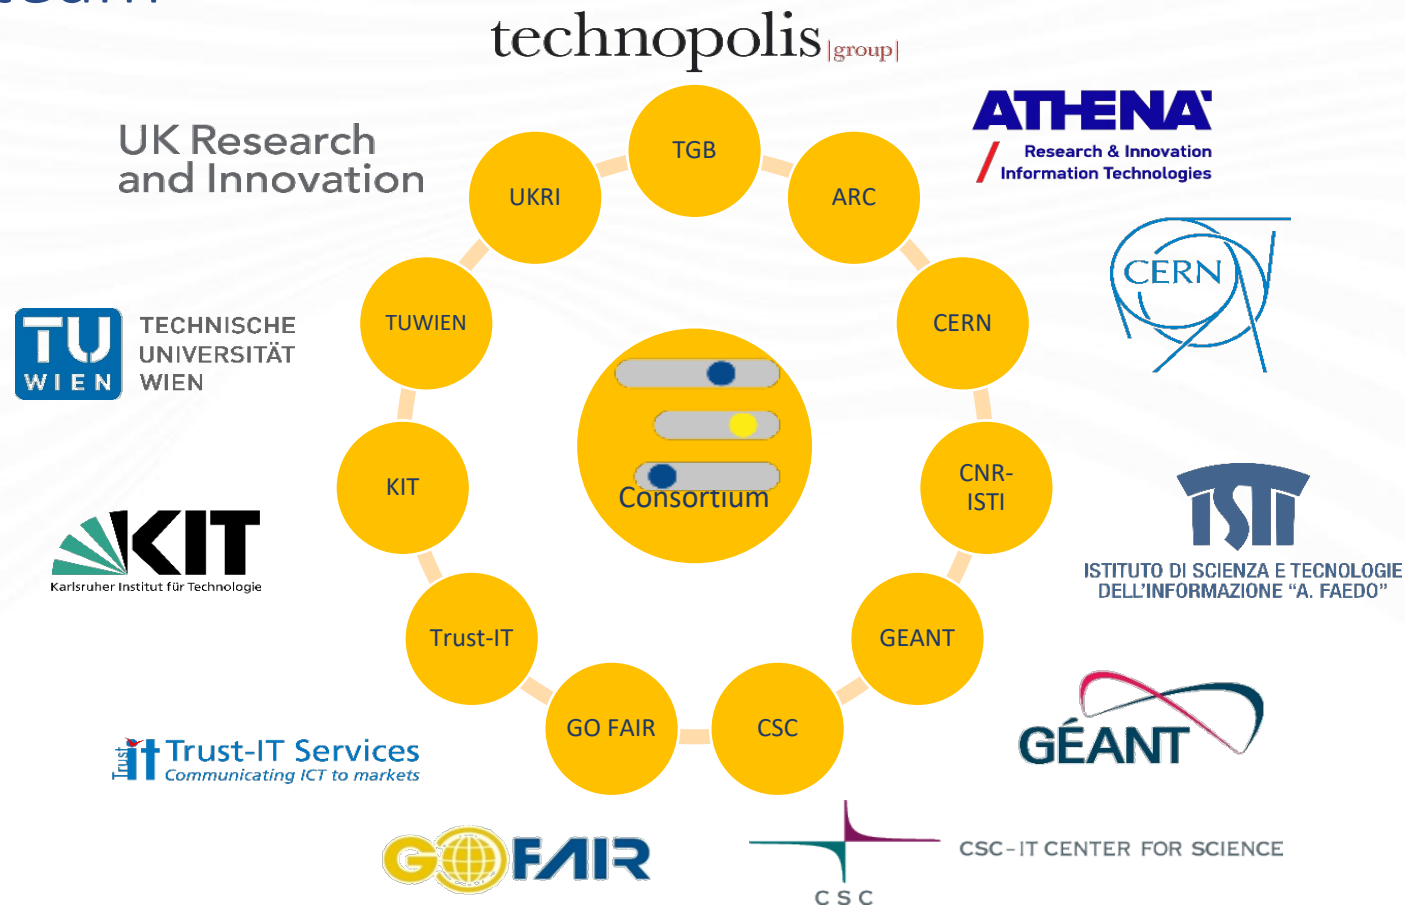

Involving the community of stakeholders

EOSCsecretariat.eu will establish a formal channel of communication with the ESFRI world

| Stakeholders | Who | Engagement & Role via Co-creation |
|---|---|---|
| Research Infrastructures | | |
| ESFRIs | Projects on the ESFRI Roadmap in all scientific domains: Energy, Environment, Health & Food, Physical Sciences & Engineering, Social & Cultural Innovation | <ul style="list-style-type: none"> Funding for stakeholders and experts to organise activities (public consultations, targeted consultations, surveys, focus groups, events, etc.) that will ensure the involvement of the entire community in the stakeholders forum Facilitation of involvement in the relevant EOSC working groups Collection of input for the studies on rules of participation, business models, and legal organisation Coordination of projects' input related to EOSC (for EOSC related initiatives) WP3 & WP7 Formation and running of scientific and advisory committees (upon decision of the EOSC governance board) |
| ESFRI clusters & other EOSC related initiatives | Projects funded under INFRAEOS-04-2018 Connecting ESFRI infrastructures through Cluster projects, projects funded as part of the FoodCloud & BlueCloud calls. | |
| ERICs | Current and any future ERICs | |
| Other pan-European Research infrastructures | Pan-European & global research infrastructures such as SeaDataNet, ENES, GEOSS, IVOA, etc. | |
| Research performing organisations & agencies | EIROforum (EMBL, CERN, ESA, ESO, ESRF, ILL, EUROfusion, European XFEL), Association for European Research Level Research Facilities (ERF), etc. | |

Our team

Guiding principles

- *Independency & neutrality*
- *Working for and under the supervision of the EB*
- *Interim character, with an enabling and advisory approach*
- Supporting a user centric EOSC implementation, with the Co-creation budget at the command of the EB
- *Flexibility & agility*
- *Transparency & openness*

Thank you
