

Creation of a knowledge network for developing skills

eosc-hub.eu

@EOSC_eu

Giuseppe La Rocca, EGI Foundation
Technical Outreach Expert

Background

- MSc in Computer Science Engineering from the University of Catania (Italy)
- 14+ years experience in EC-funded projects

At EGI Foundation

- Technical Outreach Expert
- **Leading the training activities in EOSC-hub**
- Chief Community Officer of the EGI.eu User Community Board (UCB) group
- Holds a FitSM Advanced SOC and SPD, and ISO/IEC 27K Foundation certifications

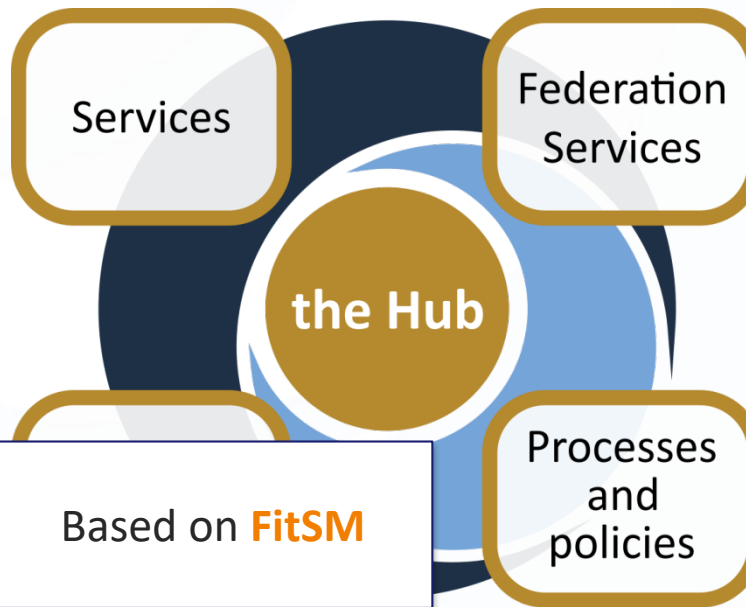

The project creates **EOSC Hub** integration and management for EOSC

From the consortium
AND from **external
contributors**

Usage according to
**Rules of
Participation**

- Data
- Applications & tools
- Baseline services (storage, compute, connectivity)...
- Training, consultants

- Lightweight certification of providers
- SLA negotiation
- Customer Relationship Management
- ...

- Marketplace
- AAI
- Accounting
- Monitoring
- ...

- Security regulations,
- Compliance to standards,
- Terms of use,
- FAIR implementation guidelines
- ...

- Competence centres → Incubator of new Thematic services
- Thematic service providers → TRL8+ already in the catalogue
- ESFRI RIs currently participating in EOSC-hub as Thematic services:

ESFRI RIs currently participating in EOSC-hub as Thematic services

- New communities → Via clusters or individual ESFRIs

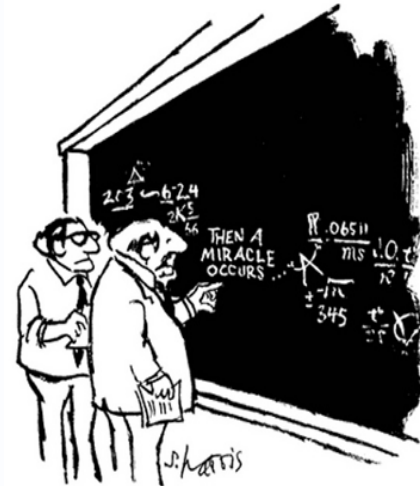

Training activity in EOSC-hub for developing skills

Reaching training audience

- Delivered training to facilitate the uptake of generic services
- **Organized 35 events, developed 200+ modules and reached 890 users**
- Made all this available through an online registry of [training events](#) and [training materials](#) on the EOSC-hub website

Supporting EOSC-hub trainers

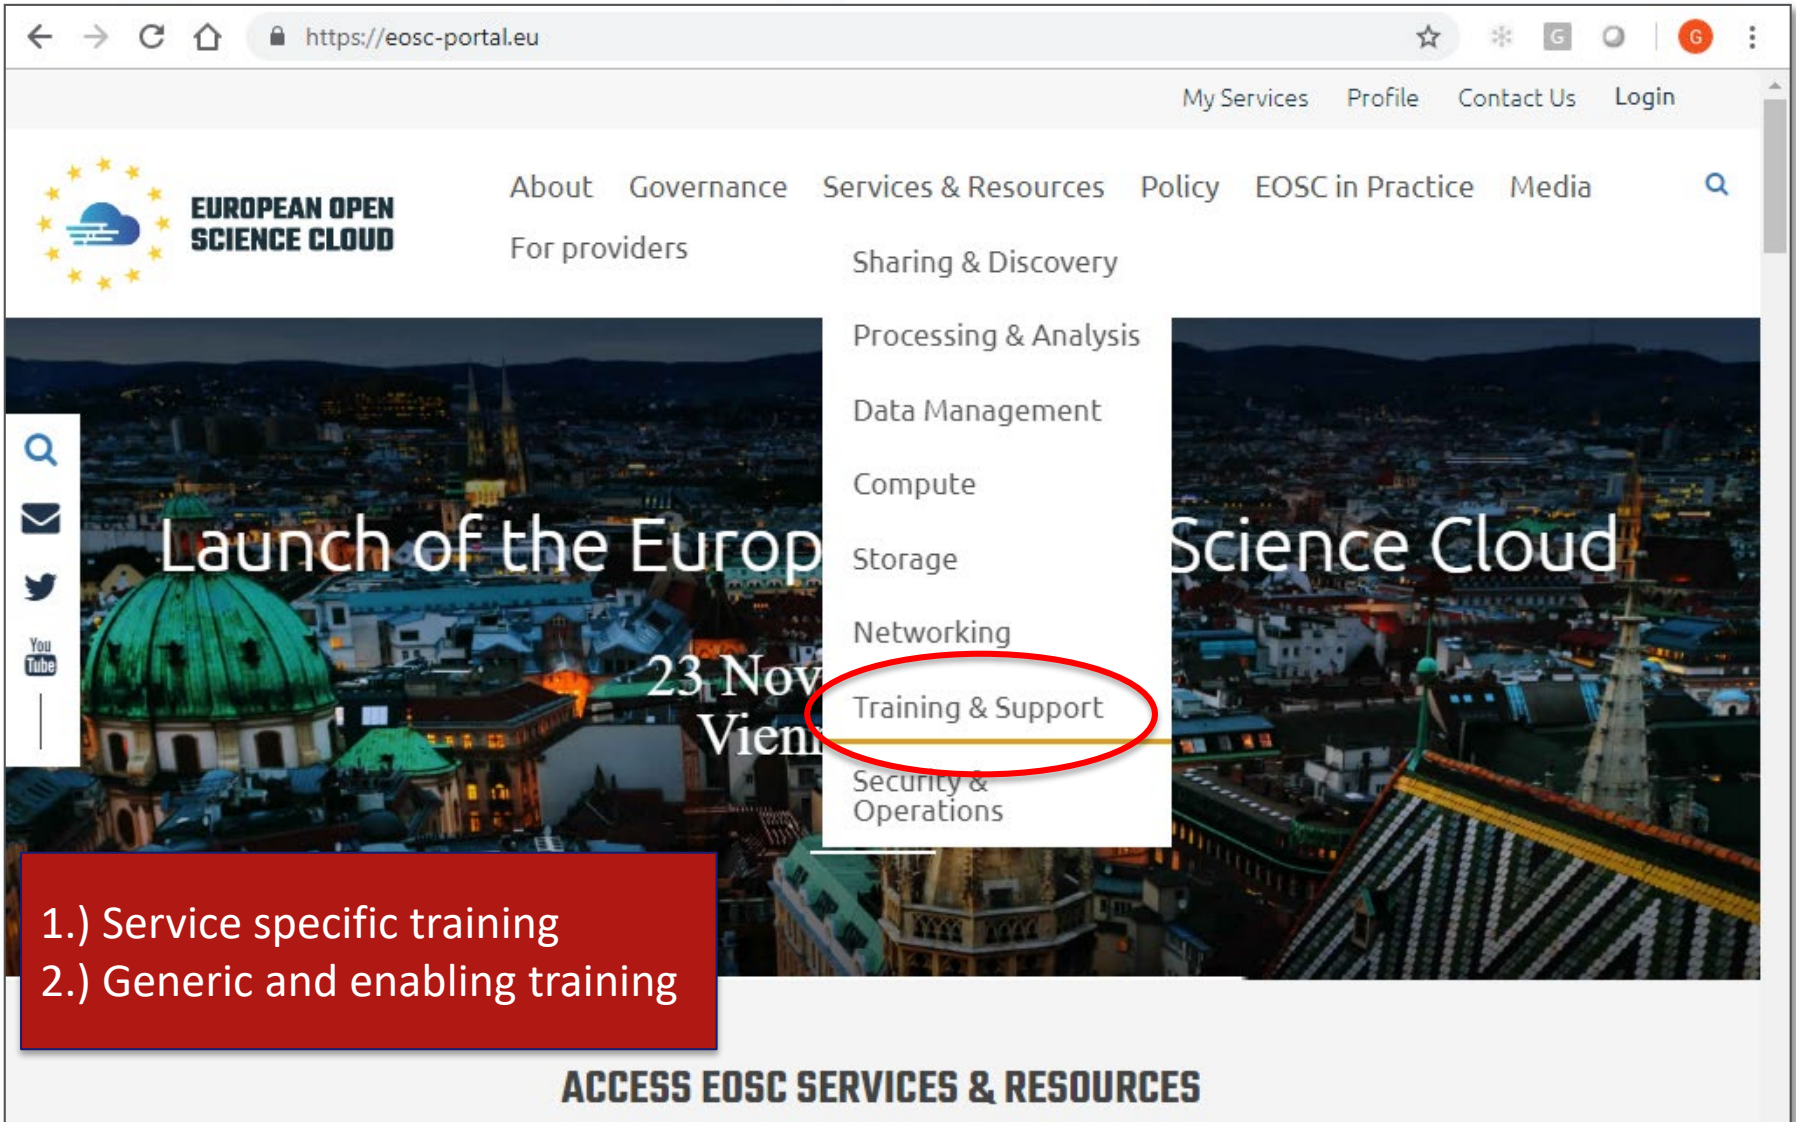

- Online guide about tools and materials for training
- 1h webinar about tools and good practices in training
- Participation in EOSC 'Training coordinators Community of Practice' initiative

"I think you should be more explicit here in step two."

- ◉ FAIR Data, Licensing, Data reuse
- ◉ Federated Services via Thematic areas
- ◉ Data Management Planning
- ◉ FitSM Certification trainings
- ◉ IT Security trainings
- ◉ ...

The screenshot shows the EOSC Portal website. The browser address bar displays <https://eosc-portal.eu>. The top navigation bar includes links for [My Services](#), [Profile](#), [Contact Us](#), and [Login](#). Below this is the **EUROPEAN OPEN SCIENCE CLOUD** logo and a search bar. A main navigation menu is open, listing various services: [About](#), [Governance](#), [Services & Resources](#), [Policy](#), [EOSC in Practice](#), [Media](#), [For providers](#), [Sharing & Discovery](#), [Processing & Analysis](#), [Data Management](#), [Compute](#), [Storage](#), [Networking](#), [Training & Support](#) (highlighted with a red circle), and [Security & Operations](#). The background features a cityscape at night with the text "Launch of the European Open Science Cloud" and "23 Nov Vienna". A red box in the bottom left corner contains the text: "1.) Service specific training" and "2.) Generic and enabling training". At the bottom of the page, the text "ACCESS EOSC SERVICES & RESOURCES" is displayed.

- How to maintain the 'Training and Support' section of the EOSC Portal?
 - Conditions and process to add new entries is missing
 - **We need a cross-ESFRI / EOSC team for this! → EOSC-hub WP11 is ready to lead. Interest?**
- How to federate content from project/ESFRI catalogues into EOSC Portal?
 - **Need for a comprehensive display of joint training contents → agreed schema and open API**
 - There is/will be a similar problem for technical services

**Thank you for
your attention!**
