EOSC Services for RIs

ESFRI WORKSHOP ON RIs AND EOSC

Royal Geographical Society, London, 30 January 2019

Moderator – Ana Proykova, Chair of ESFRI DIGIT WG

EOSC and ESFRI Ris services: how do they tango?

EOSC horizontal projects – services for RIs

FAIR (Findable, Accessible, Interoperable, Re-usable) data principle

EOSC projects to present views on:

Uniqueness

Access to services

Data collection & Data quality

Interaction EOSC <-> ESFRI RIs

EOSC-hub

brings together multiple service providers to create the Hub

a single contact point for European researchers and innovators to discover, access, use and reuse a broad spectrum of resources for advanced data-driven research.

eInfraCentral

- European E-Infrastructure Services Gateway
- eInfraCentral's mission is to ensure that, by 2020 a broader and more varied set of users (including industry) discovers and accesses the existing and developing e-infrastructure capacity.

FREYA

Connected Open Identifiers
for Discovery, Access and Use of Research Resources

OpenAIRE-Advance

Embedding Open Science into researcher workflows

provides **interoperability services** that connect research
enables researchers, content providers, funders and research
administrators to easily adopt open science

EOSCSecretariat.eu

Delivers 360° support to the EOSC Governance

Works openly and inclusively with communities
to co-create an all-encompassing
European Open Science Cloud
