Title: The Sustainability

WG 'Iron lady' document

- **EOSC Association membership fee does not cover the cost of operating EOSC**
- **Costing is focused on operation not development**
- **Transition from current state to first implementation of MVE and need to move away from project funding**
- **Open remains open**
- **Need consensus on interoperable metadata framework**
- **Federate using EOSC interoperability framework with national/thematic infrastructures**
- **Ensure universities are engaged**
