

2nd ESFRI RIs - EOSC Workshop

Research Infrastructures shaping EOSC

Present & Future

6 & 7 October 2020

▶ ONLINE EVENT ◀

Break out Session 2.3

Title: Rules of Participation

1. Did you already participate in the consultation on the former version of the RoP?
2. Do you have immediate comments on the RoP-Version presented this morning?

The RoP will be split as high-level statements (the current focus of the WG) and specific implementation guidelines that address practical implications.

1. Would you suggest to develop implementation guidelines for (a) thematic research infrastructures and/or (b) ESFRI as a whole?
2. How should the editorial process be organized, also after the RoP have been handed over to the EOSC association (December 2020)?

Break out Session 2.3

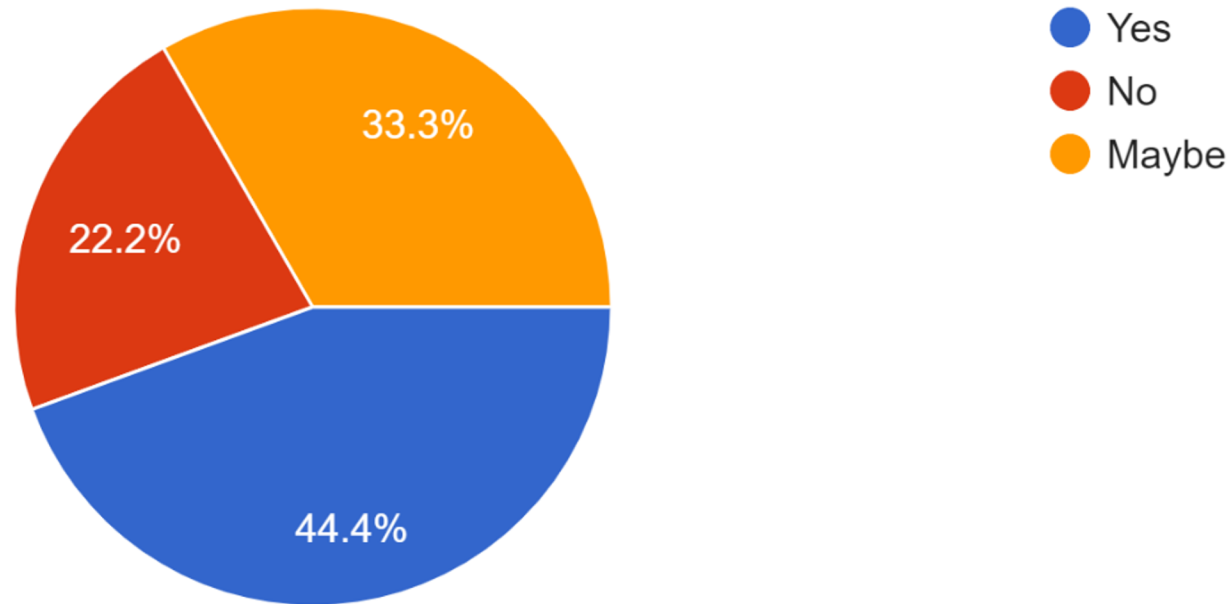

Title: Rules of Participation

- “Open to all”: perhaps not strictly true but important to keep this statement, to signal intent
- Mixed views on whether to develop implementation guidelines, but most agreed
- But if so, most felt ESFRI should be involved, but an inclusive approach is important
- Most felt EOSC Association should have final editorial responsibility for individual implementation guidelines
- Strong agreement thematic communities should be represented in the EOSC Association for RoP implementation guidelines

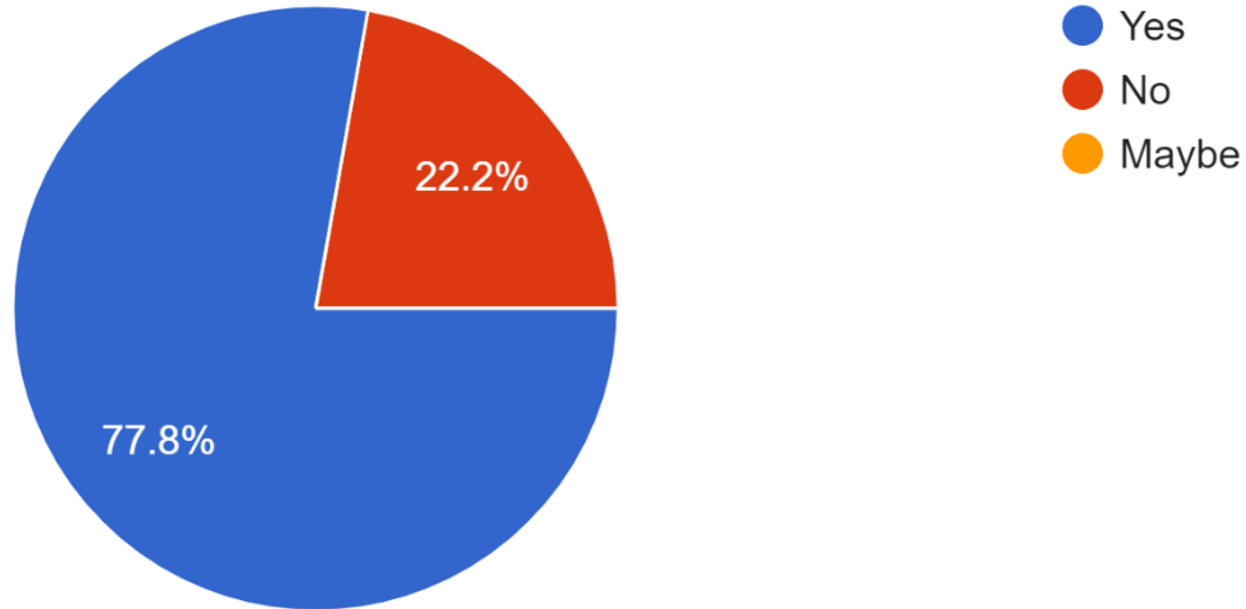

Would you suggest to develop individual RoP implementation guidelines for thematic research infrastructures?

9 responses

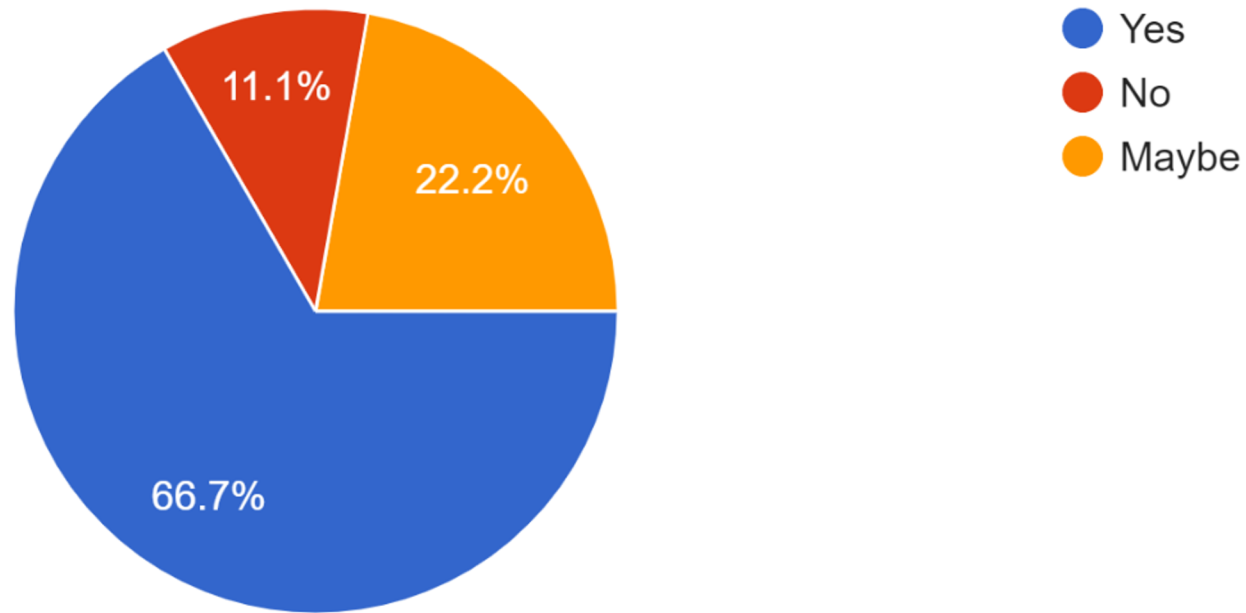

Do you think ESFRI should have an organizing role in preparing individual RoP implementation guidelines for thematic research infrastructures?

9 responses

Should the final editorial responsibility for individual RoP implementation guidelines (not the RoP itself) lie with the EOOSC association?

9 responses

Should there be a standing representation of thematic research infrastructures in the EOSC association for RoP implementation guidelines?

9 responses
