

RIs as knowledge hubs and pillars of competitiveness

Jana Kolar

Relevance of the ESFRI proposed KPIs

- Most relevant – scientific performance and size of resources
- Least relevant – economic activities and coop. with industry

New opportunities in ERA & HEurope:

- Missions, Partnerships

CERIC-ERIC:

- GA adopted as a priority energy materials (tailored RIs, cooperation with Universities, ringfencing access?)
- A broad cooperation with RIs across domains sought on batteries/ electro-mobility
