Limited Exposure

Start-up spaces

Business Model

**Needed - Representative dialogue among regional actors with shared goals agreed.
And how to make the case at the National level?**

Alignment of National Roadmaps with Regional Implementation of RIs

Before consideration of a new initiative:

Initiation of a new project:

*Carefully consider if the socio-economic benefit will be fulfilled for the region prior to funding.
And how to ensure that the RI host institute delivers?*

Mission Attainment: Smart Specialization and/or European Excellence? Regional or Global?

RI Host Institution

Policies/Processes Alignment with Mission of RI Host Institution

HR - Dedicated trained people to implement

Financial – support to sustain effort

Monitor Progress – set the goals and measure

Outreach/PR – internally and externally

Technology platform – Dedicated technical staff and skilled industry connector

Societal platform – Engagement with region to understand the challenges, include foresight research

Education

Research

Societal

Financial	Yearly	Multi-annual	Long-term
Outcomes	Teaching	Publication	Start-up/social innovation
Personnel	Lecturer	Researcher	Mainly student with Faculty support

The RI Host Institution must be operationally equipped to fulfill its mission which is articulated both internally and externally

Thank you!
